SPLENDID PEONIES HARDY EVERYWHERE

"ARISTOCRAT OF FLOWERS"

THE wonderful improvements made during recent years in these old-fashioned hardy plants have brought them into renewed popularity. The gorgeous flowers, which rival the finest Roses in size, form and color, are produced in great abundance. After once being planted they require little care and attention, thrive anywhere, and are absolutely hardy even in the coldest climates; each year after planting they grow into greater value, producing more and more flowers. They are not troubled with insect pests. Try some of our fine Peonies, and see what grand flowers they are. Get it out of your head that there are only Red, White and Pink Peonies to illustrate at flowering time. People who visit our field will say, "I have Pink and White Peonies. I desire only Red ones," but when they are shown the Pink and White, they invariably exclaim, "How grand! I have none like them." There is as much difference in Peonies as there is in Roses.

Size of Roots

We grade our roots as follows:

1st Size, Divided Roots—This is a root divided until it has from two to five eyes. This is the size we always plant and recommend this for general planting, both as to the desirability of its low cost and the results obtained.

2nd Size, One-Year Roots—This is a 1st size divided root of two to five eyes planted and grown for one year, then dug and sold you as it comes from the ground, or its equivalent.

3d Size, Two-Year Roots—This is the 2d size left in the ground one year longer and sold you as it comes from the soil, or its equivalent.

4th Size, Three-Year Roots—This is the 3d size left in the ground one year longer and sold you as it comes from the soil, or its equivalent.

What we mean by its equivalent is, that we do not divide all our Peonies every year, hence could not have all the sizes every year. To illustrate: if we divide up all our Modele de Perfection, fall, 1916, for fall, 1919, we would have to divide up plants to get one-year and also two-year plants, but we give the equivalent in roots as though they had been so planted. We always give value.

You may order by the number preceding the varieties or by name; or, better still, in ordering use both number and name.

The proper time to plant Peonies is from September 15th until the ground freezes up.

The varieties in this list are ready in September, October and November. Let us book your order now. Orders filled in strict rotation.
